IMPORT SUBSTITUTE OF 4-WAY CAST IRON VALVES FOR MAINTAINING RELATIVE HUMIDITY IN PROCESSING OF MUSHROOMS

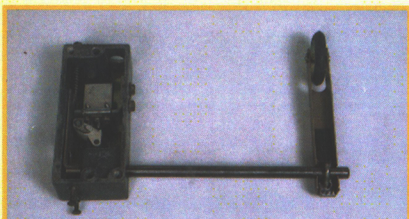

AUTOMOBILE COMPONENTS FOR PRIMARY PUMPING AND ELECTRICAL FLASHERS

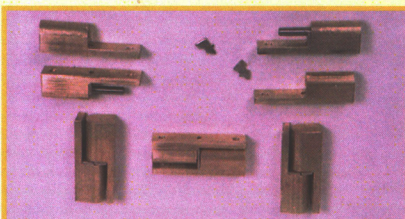

BRASS CONTACT BLOCKS FOR HRC FUSE CARRIERS

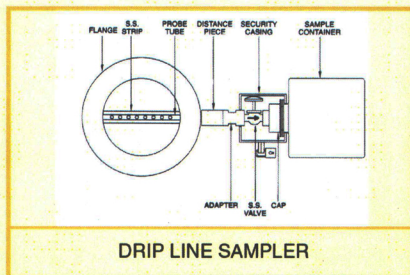

PLASTIC / BAKELITE COMPONENTS AND MOULDS

ELECTRO MECHANICAL SWITCH FOR LIFTS

SPECIAL PURPOSE HINGES FOR ELECTRONIC ENCLOSURES

DRIP LINE SAMPLER

## About AMI

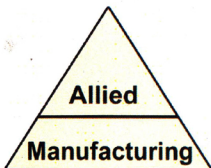

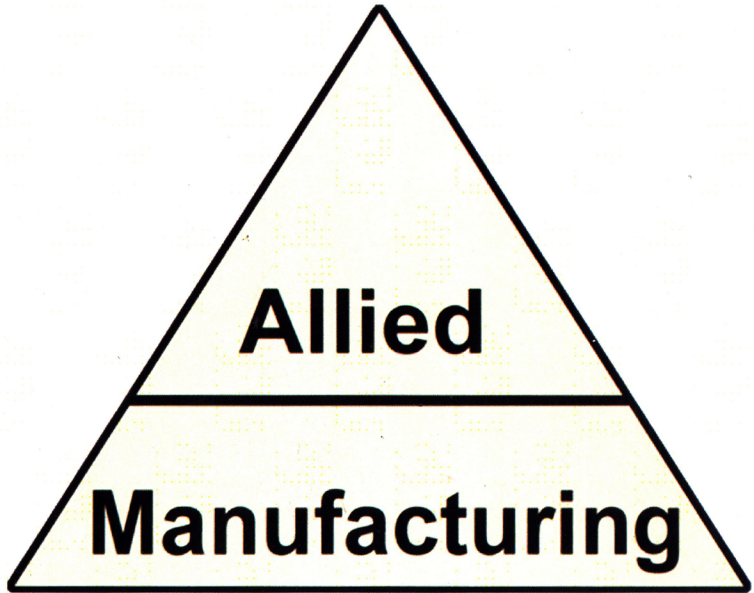

- Founded: January 1961
- We are one among the old Small Scale Industry units started exclusively with the purpose of serving small, medium & large companies.
- During this time we also made RF coaxial connectors for the electronic industry, studs & bushes for electrical / transformer industry, hanger & rivets for the hardware sector.
- Our main line of activity is manufacturing / development of products as per the design and specifications of customers.

## Our Range of Product Offering

- HRC Fuse carriers for electricity department.
- Electronic Connectors
  - R.F.Connectors
  - Audio Connectors
  - Environment sealed connectors for defence applications
- Manufacturing of Plastic moulds and its components.
- Manufacturing of Bakelite moulds and its components.
- Manufacturing of any Brass component as per customers design and specifications.
- Presently engaged in direct export of stainless steel (SS316) components & its Sub-assembly, which is duly self-tested and exported.
- Also executed orders for Automobile Premier Pumps indirectly through a local Exporter.

## Some of Our Experience

- We are also manufacturing Stainless Steel components (SS316), which are being exported to various countries through our main client in USA.
- We have executed and manufactured Plastic moulding tools, Bakelite moulding tools, Pressure Die casting dies in Aluminium and Zinc components for Automobile industry.
- We have manufactured a variety of Brass components for the electronic industry, electrical industry and hardware industry for the past 40 years.
- We have also manufactured automobile components consisting of plastic components & other parts with our assembly tools, which are indirectly exported through one of our local clients for the past 10 years.
- We have also developed import substitute 4-way C.I. valves of 2.5" and 1" for one of our local clients in Hyderabad.
